## Why Hunt with Kiowa Hunting Service in New Mexico?

- ⊕ New Mexico is known for its big game populations and its quality of animals
- ⊕ Kiowa offers both private land and public land hunts. Private land hunts allow you to purchase across the counter licenses and the public land hunt licenses are by draw.
- ⊕ Kiowa offers several levels of guided hunts to meet your needs and budget, from our fully guided and accommodated to a limited 2 day guided hunt, after which you may continue to hunt on your own. These include the use of our outfitter number to apply for the draw which can significantly increase your odds of drawing. Please see the following pages for a full description of the hunts offered.
- ⊕ Kiowa has been in business for 30 years and maintains a professional relationship with landowners, federal land agencies and state agencies. Kiowa is licensed by the State of New Mexico and by the public land use agencies upon whose property we hunt.

### Youth Hunts

#### Youth Discount

10% off the regular price of the hunt when accompanied by a paying adult or additional youth. A youth is a person 16 years or younger at the time of the hunt.

## Why Hunt with Kiowa Hunting Service in Colorado?

- ⊕ Kiowa leases one of the premier elk hunting ranches in Colorado. The ranch is located within GMU 83, one of the few totally private land game units in the state.
- ⊕ Kiowa's ranch provides you the opportunity to hunt for and to take 300 B&C class bulls with rifle and archery equipment. This ranch continually produces this quality of bull.
- ⊕ Kiowa provides hunts on this ranch for all weapon types, archery and rifle.
- ⊕ Colorado offers across the counter licenses for archery hunts, and two rifle hunts, no draw.
- ⊕ Kiowa's ranch offers you the opportunity to draw a fourth season rifle license with only one preference point. One point will guarantee you a license, from past history. No preference points will still offer you an excellent opportunity to draw a tag.
- ⊕ Kiowa offers you the opportunity to have a quality experience with use of the lodge, guides, catch and release fishing, and the opportunity to take that "big" bull that you have always thought about.

Please look over the information contained in our brochure. Contact us for all your hunt and draw needs, or if you have any questions.

Have a Safe and Fun 2018 Hunting Season!

*-Kiowa Hunting Service*

## New Changes to New Mexico Regulations

The New Mexico Game and Fish Commission recently changed the Guide and Outfitter regulation. The new regulation states that any person drawing a tag or license, by the use of the outfitter number, must be accompanied in the field for a minimum of two days. This means that anyone drawing a license utilizing an Outfitter Number for the special pool, must have a guide present and accompanying them for 2 days of their hunt time frame. "Drop camps" and "self guided" hunts are no longer allowed without 2 days of guiding now, therefore we can no longer offer you "drop camps or self guided hunts".

To comply with the new regulation Kiowa Hunting Service will now offer three types of hunts to its customers:

1. Fully Guided and Accommodated Hunts. This was the same hunt that we have always offered and is offered for most species.
2. Partially Guided and Accommodated Hunts. This hunt is offered for elk and deer and only in units 10, 51 and 52 for all weapon types. This was our old "self guided" hunt, but now with a guide for two days. The guide to hunter ratio will be equal to the group's number of applicants on their hunt application.
3. Partially Guided with NO accommodations or meals. This was our old use of the "outfitter number" only hunt. This hunt is offered only for elk and deer hunts. The guide to hunter ratio will be equal to the group's number of applicants on their hunt application.

Things have changed to some degree but we have adapted and attempted to keep our prices competitive for our customers.

## ELK

### PARTIALLY GUIDED WITH NO ACCOMMODATIONS

This hunt will allow you to apply for an elk or deer hunt using the Outfitter Number to increase your odds of drawing

a license. You may apply in any unit that you would like in the state and we will provide you with the outfitter number for the draw and a guide for two days of your hunt. The ratio of guide to hunters will be one guide per the number of hunters on your application. The guiding will occur for everyone, on your application, at the same time. There will be an additional charge if your party requests additional guides, at a smaller ratio of guides to hunters. At the time when we do the booking contract, we must list, by regulation, which two days of your hunt that you desire to be guided. We furnish nothing for your hunt except the use of the Outfitter number to assist with drawing and

a guide for two days. This hunt is not allowed in wilderness areas and must be in an area where the guide can drive to your camp, without having to pack into a location, attempt to find you, and spend a day packing in and packing out.

#### Partially Guided - No accommodations

##### Hunt Dates

Valid in any hunt, except wilderness areas

##### Hunt Prices

**1 hunter, guided 2 days:**

\$1,400 + 8% tax

**2-4 hunters, guided 2 days:**

\$1,200 each + 8% tax

**Application Deadline:**  
**March 21, 2018**

## PARTIALLY GUIDED AND ACCOMMODATED HUNTS

### PUBLIC LAND RIFLE, BOW, AND MUZZLELOADER HUNTS

These hunts are only offered in Game Management Units 10, 51 and 52 for all weapons types (rifle, muzzleloader and bow). These hunts are designed for those hunters who are looking for a quality hunt, feel confident about hunting elk on their own and want a guide for part of their hunt, and do not want the hassle of having to bring and set up a camp.

Frequently asked Questions about Partially Guided hunts:

4+ hunters: \$2,000 or \$2,500 + 8% tax

All prices do not include NM tax.

**Application Deadline:**  
**March 21, 2018**

**Q:** Can I have a camp for only my group?

**A:** We do not do this as it is against regulations to do only drop camps with no one present to guide for two days.

**Q:** I want to be packed into an area and checked on.

**A:** We do not do this because if you or I select the wrong area and there are no elk, your hunt will not be successful. Also, by doing this you have limited yourself to hunt in an area that you can only walk into. Your odds of success are less with this manner instead of being mobile.

**Q:** How many people are going to be in camp?

**A:** I do not know. These are draw hunts and it depends on the draw and how many people draw. The size of camps differ by area chosen, weapon types, and seasons.

**Q:** Tell me about your camp.

**A:** We set up one camp per unit. All hunters that are guided or partially guided are in that camp. You drive out of camp each time, to different pre-scouted locations and you are either guided or you can hunt on your own. We utilize the whole unit and by being mobile we increase your success by getting you to where the elk are.

**Q:** What does Kiowa furnish?

**A:** We provide you the outfitter number to increase your odds of drawing a license. We provide the main camp, tent, cots, pads, lights, and heat. We provide the cook, the meals, the snacks, a person knowledgeable of the area to send you to where we feel you will find elk, and we guide you for two days and retrieve your game after you harvest the animal.

**Q:** What does the hunter provide?

**A:** The hunter applies for the license, with our help, personal gear, bedroll, weapon, transportation to and from camp and during the hunt. You basically spend your time hunting... not cooking, washing dishes, or cleaning up camp.

The units that we hunt can be described as follows:

**Unit 51 and Unit 52** are located in North Central New Mexico. Unit 52 is approximately 300,000 acres in size and Unit 51 is approximately 380,000 acres. Both of these units are in a roadless/wilderness area that prohibits off road vehicles and off road traffic of any type. The areas have numerous open roads within the unit, often two to three miles apart, which allows the hunter access to areas to hunt by foot. These units have an excellent elk population and the number of hunters is controlled, as opposed to Colorado's public land units. The odds of drawing a license are excellent with the outfitter number. These units offer the hunter easy access, an excellent elk population, and limited hunting pressure. This is a public draw unit and it usually offers a very high opportunity to draw a license with the use of the outfitter number.

**Unit 10 - Cibola National Forest** is located south of Grants, New Mexico and is on the north end of the Gila range. I consider this unit a sleeper unit. It has a smaller, but good population of elk than other units, but it has the potential to produce for you with a bull of a lifetime. Due to the makeup of the unit, Native American reservations, National monuments and private land holdings these areas provide a bull the opportunity to gain age and consequently size. We have taken bulls off of this unit that are greater than 300 B&C and occasionally one better than 350 B&C.

popular and are in high demand by the sportsmen. A landowner tag in these units will continually sell for over \$5,000.00 each. This is your opportunity to have a chance to draw a tag at a reasonable price and have a guided hunt to go with it for the cost of the landowner tag. You should make one of these hunts a minimum of one of your three choices on your application.

- ⊕ **The cost of the hunt includes:** accommodations, meals, courtesy transportation during the hunt, retrieval of the harvested animal, and caping for trophy preparation of the animal.
- ⊕ **The hunter is responsible for:** applying for the license, with our help, and their person gear including bedroll and weapon.

### GILA NATIONAL FOREST

Kiowa has expanded its offerings and are conducting hunts in the infamous Gila National Forest. We hunt all units except for 16B and wilderness areas located within the units.

These are THE bulls that you hear about. We hunted last year in the units and harvested some exceptional animals. In the past the Kiowa Team has taken bulls up to 383 and often take bulls in the 340 and 350 class. This is a great opportunity to make a Gila hunt one of your three choices when you apply this year. Great hunt, great guides and great bulls.

- ⊕ **The cost of the hunt includes:** Accommodations, meals, courtesy transportation during the hunt,

retrieval of the harvested animal and caping for trophy preparation of the animal.

## CIBOLA NATIONAL FOREST - UNIT 10

This unit is known for big bulls and a good number of elk. Although the number of elk in this unit is not as high as in other units, the size of the unit, the national monuments and closed areas within the hunt unit, allow for bulls to gain age and consequently size. The guides for these units are very knowledgeable of the hunt area, are great hunters, and have a history of getting clients on big bulls. This is an excellent unit and the odds of drawing a bow license is over 50% with all applicants, historically.

⊕ **The cost of the hunt includes:** accommodations, meals, courtesy transportation during the hunt, retrieval of the harvested animal, and caping for trophy preparation of the animal.

⊕ **The hunter is responsible for:** applying for the license, with our help, arriving in camp, personal gear, weapon, license and stamps, and care for the animal after it arrives in camp.

## PRIVATE LAND ELK RIFLE HUNTS

These are Guaranteed License hunts that occur on private ranches in New Mexico. We currently offer hunts in Game Management Units 7 and 10. These ranches have the potential to produce 300 B&C class bulls for the hunters. This year we took exceptional bulls up to 371 B&C on private land.

⊕ **The cost of the hunt includes:** private landowner authorization, meals, guide, accommodations on some hunts, courtesy transportation during the hunt, and caping for trophy preparation of the animal.

⊕ **The hunter is responsible for:** their personal gear, weapon, transportation to the nearest town near the hunt area or camp, motel costs if required, and across the counter NM Elk license.

Hunts begin in early September with archery and in early October with rifle and muzzleloader, to take advantage of the rut and the bugling of the bulls. You

will be hunting where we know there are elk. We have a high percentage of shot opportunity for a hunter to harvest bull elk. These hunts are not very physical.

Each private land ranch differs by terrain, elk population, the number of hunters on the ranch per hunt, accommodations, and other variables. Call us and we'll discuss the options with you and pair you with a ranch that is suitable for what kind of hunt you would like.

# ELK

## COLORADO PRIVATE LAND ELK HUNT

This hunt occurs in Southeastern Colorado in Game Management Unit 83. This is a great hunt with the potential of harvesting a once in a lifetime bull. This is truly a trophy class ranch where you can take that 300 plus B&C bull. This hunt does not involve an extensive amount of walking and as such is more of a spot and stalk hunt than a physically challenging hunt. Though not overly physically challenging, it is still a foot hunt. You must be able to cover areas to close the distance to the elk for a shot. It is a morning and evening hunt and not a hike the hills all day type of hunt.

In a normal weather year this area will hold a tremendous number of bulls. The area hunted is 11,000 plus acres and runs from sagebrush flats with wetlands, to timberline and above. We will hunt this ranch during the archery seasons, and the second, third, and fourth rifle hunts. The fourth rifle season is by draw only. It normally takes one preference point to draw but it is possible to draw the tag with no points in some years. Bow hunts and rifle seasons two and three are across the counter licenses. We will take only a limited number of hunters during these hunts. Your accommodations will be in

the camp lodge. Catch and release trout fishing, with the appropriate license, is also available at the ranch lake.

- ⊕ **Cost of hunt includes:** guide, courtesy transportation during the hunt, private land trespass, accommodations in the ranch lodge, meals, trophy preparation of the animal, and put and take trout fishing. Airport pickup can be arranged if flying into Alamosa, Colorado.
- ⊕ **Hunter is responsible for:** hunting license, personal gear, weapon, and arrival at camp.

## PRIVATE LAND COW ELK HUNTS

These are Guaranteed License hunts that occur on one of the largest ranches in northeastern New Mexico, which is 566,000 acres of totally

private land. We have exclusive hunting rights on approximately 150,000 acres of the total ranch. This ranch holds one of the largest elk herds in the state of New Mexico, usually counting around 10,000 animals during the winter surveys. This is a truck hunt, it is not a walk the woods hunt. Most of the hunting occurs by use of vehicles due to possible weather conditions, temperatures and snow cover. We have run a nearly 100% hunter success rate for the last 20+ years. These hunts are modern rifle only and are a VERY popular hunt. You need to book early to come on this hunt and be assured of a spot as we will be full by spring. The earlier you book the better chance you have to select a date that works for you. We attempt to only take three trucks at a time on the ranch, so three day time frames book up quickly.

transportation during the hunt, cleaning of the harvested animal, and transportation of the elk to the Raton meat processor, or a location of your choice within the Raton area.

**The hunter is responsible for:** their motel, meals, personal gear, weapon, license, and charges for skinning and any processing/handling they request from the processor.

**The cost of the hunt includes:** Landowner Authorization, guide, courtesy

# SHOOTING SCHOOL

The Kiowa Shooting School offers shooting classes for hunters of all skill levels based on actual hunting situations. Whether you are new to the sport, or have years of experience, our instructors can help you sharpen and develop your skills to increase your confidence, accuracy, and knowledge so that when the opportunity presents itself you will be able to make the shot without a problem.

Our classes are held on a private ranch in central New Mexico, that offers true hunting environments and not just shooting at a rifle range. Classes are 3 days in length and are a mix of classroom instruction and range time. Students can expect to shoot approximately 250 to 300 rounds of ammunition during

**Included:** welcome dinner, continental breakfast, drinks, and lunches.  
**Shooter is responsible for:** transportation to range, hotel, dinner, ammo and weapon.

those 3 days. Shooters will gain knowledge and confidence in their rifle, as well as its capabilities and limits.

Kiowa Shooting will offer three different types of classes:

**Basic Hunter:** This class is for people that are new to hunting and shooting, or just want to start over from the beginning. This Class will focus on marksmanship fundamentals such as target acquisition, breath control, trigger control, and shooting from multiple positions. We will also go through the basics of ballistics and how environmental conditions, such as wind and altitude, effect bullet flight. Students will gain confidence in their rifle, and themselves to be able to accurately shoot distances of 300-400 yards.

**Intermediate Hunter:** This class is designed for the hunter that has experience shooting, but wants to expand their knowledge and hone their skills to push out their effective shooting distances. This class will go into a more in-depth instruction of ballistics, environmental conditions, optics, as well as proper bullet and caliber selection. This class will focus on shooting at distances ranging from 400-800 yards.

**Long Range Hunter:** This is for the hunter that wants to push their limits to the max. This class focuses on shooting distances from 600 – 1000 yards. There is an in depth focus on shooting form, ballistics, optics, environmental effects, ballistic coefficients, and other equipment

that a shooter will need to be able to effectively and consistently shoot at long distances.

**For the Women:** This is our Basic Hunter class but set up specifically for women. We are pleased to see that more and more women are entering the hunting and shooting community. This is a class designed to help learn the basics of shooting or to advance the skills the shooter already has. This class will focus on how to select and adjust a rifle that fits the shooter, caliber selection and recoil, shooting equipment, shooting positions, ballistics basics, and environmental effects.

# ANTELOPE

Kiowa Hunting Service offers a variety of antelope hunts for the prospective client with hunts in both Northern and Southern New Mexico. All of our private land ranches have guaranteed licenses.

## NORTHERN RIFLE ANTELOPE HUNTS

This hunt occurs on private land ranches in Northeastern New Mexico. This hunt is a spot and stalk type hunt, utilizing vehicles. We have had a 100% success rate on these hunts for numerous years.

- ⊕ **Cost of the hunt includes:** Private land authorization, meals, camp, guide, private land access, courtesy transportation during the hunt, and trophy preparation of the harvested animal.
- ⊕ **The hunter is responsible for:** transportation to and from camp, motel accommodations if desired, personal gear, weapon and cost of the license.

## Northern Rifle Antelope

### Hunt Dates

1x1: \$3,500 + 8% tax

**NO DRAW OR APPLICATION**

## SOUTHERN RIFLE ANTELOPE HUNTS

This hunt occurs in south central New Mexico. The hunt occurs on a private ranch, with approximately 76,000 acres of antelope habitat. We have a 100% success rate on this hunt for twenty years. We continually take B&C qualifying antelope on this ranch. The hunt is a spot and stalk type hunt, utilizing vehicles. This ranch holds hundreds of antelope as substantiated by annual population counts. Our management program calls for us to harvest no more than 15% of our buck population.

- ⊕ **Cost of the hunt includes:** Private land authorization, meals, motel accommodations, guide, private land access and trophy preparation of the animal.
- ⊕ **The hunter is responsible for:** transportation to and from Vaughn, New Mexico, personal gear and weapon, and cost of the license.

# BARBARY SHEEP

## PUBLIC LAND BARBARY SHEEP (Aoudad) HUNT

This hunt is for free ranging Barbary Sheep (Aoudad) in New Mexico. It is an excellent hunt for excellent animals. This is a park the vehicle and hike style hunt and the vehicle is seldom seen again until dark. This is a physically challenging hunt, with numerous miles of walking done each day.

- ⊕ **Cost of the hunt includes:** courtesy transportation during the hunt, drinks, snacks, and lunches during the hunt.
- ⊕ **The hunter is responsible for:** travel to Roswell, New Mexico, motel accommodations, meals, personal gear, and licenses. Hunters should bring comfortable day packs to carry water, storm clothing and other personal items.

Public land licenses are by draw.

The odds of drawing this tag, utilizing an outfitter number was excellent in 2017.

## Public Land Barbary Sheep

### Hunt Dates

February 1-28, 2019 any 4 consecutive days, but must include a weekend.

### Hunt Prices

2x1: \$3,000 + 8% tax

1x1: \$3,500 + 8% tax

**Application Deadline:**  
**March 21, 2018**

# MULE DEER

## RUT & PRE RUT MULE DEER HUNT

This hunt is located out of Vaughn, New Mexico on the Vicente Ranch. This ranch is 78,000 acres in size and has a mixture of antelope and deer habitat. The elevation on the ranch is approximately 6,000 feet. The area is a mixture of Pinon/Juniper, Ponderosa Pine, and high desert grasslands. We have hunted and managed this ranch since 1991 and we have consistently had an excellent success rate on mature mule deer on this ranch. The ranch has continually produced deer into the 180 and 190 class, with the possibility of that type of

deer being there for your hunt.

Kiowa Hunting Service has enrolled the Vicente Ranch in the New Mexico Department of Game and Fish's Deer Enhancement Program. Because of this program, Kiowa has received a special set of permits that can be used outside of the normal deer hunting season dates set by the state. We receive one set of permits that we can use from September 30 to December 15, 2018, and another set that can be used from December 16, 2018 to January 31, 2019. With the peak of the mule deer rut normally occurring in mid to late December, we are able to offer a very rare opportunity to our hunters. These hunts are going to be exceptional, occurring during the mule deer rut, where we can utilize rifles, with across the counter licenses. These hunts are five days in length and limited in the number of hunters for each hunt. Our Pre-Rut hunts will have a maximum of seven (7) hunters on the ranch.

Our Rut Hunts will have a maximum of two (2) hunters on the ranch.

- ⊕ **The cost of the hunt includes:** meals, courtesy transportation during the hunt, guide, and caping for trophy preparation of the animal.
- ⊕ **The hunter is responsible for:** their license, personal gear, weapon, motel costs and transportation to and from the camp.

### SANDHILLS MULE DEER HUNT - UNIT 33

#### Sandhills Mule Deer Unit 33

##### Hunt Dates

November 3-7, 2018  
November 17-21, 2018

##### Hunt Prices

2x1: \$3,500 + tax  
1x1: \$4,000 + tax

**Application Deadline:**  
**March 21, 2018**

These rifle hunts take place on public land in the Mescalero Sands east of Roswell, NM. This unit is well known in New Mexico for having large trophy bucks and is identified by the NMDGF as a quality unit. The guides have taken several bucks that scored over 200 B&C. Even though the population is not large, the area lends itself to producing large bucks due to the sandhill topography and limited access. Spot and stalk is the key, with a lot of time behind the binoculars and spotting scope.

- ⊕ **The cost of the hunt includes:** meals during the hunt, courtesy transportation during the hunt, guide, caping of the animal for trophy preparation.
- ⊕ **The hunter is responsible for:** their license and stamps, personal gear, weapon, motel costs, extra meals, and transportation to Roswell, New Mexico.

# MULE DEER

## OLD MEXICO TROPHY MULE DEER HUNT

These hunts are for the giants of the desert that come from Sonora, Mexico. They occur between Guaymas and Hermosillo in Sonora, Mexico. Hunts are six days in length and are conducted by walking, vehicle, spot and stalk, and by hunting water holes. The hunts are highly successful. These

mule deer are what the average American mule deer hunter can only dream of.

Everything is included in this package from the time you arrive in Mexico until you depart. You are responsible for arriving in Hermosillo, Mexico, personal gear and weapon, and gratuities.

we have been doing these hunts we have never had anything remotely close to any incident. This is the hunt and vacation that you really will want to come back to each year.

50% up front to book your hunt and the other 50% 30 days before arrival

This hunt can also be modified to allow for two mule deer or a mule deer and a Coues Whitetail. It can also be combined with a vacation for your significant other, lounging on the beaches of San Carlos and enjoy the resort town. It was voted the Best Ocean View in the World out of 500, and is # 1 of the Top 10 list by National Geographic.

Mexico is a safe destination in the interior. Do not be wary about visiting. In the years that

# COUES DEER

## NEW MEXICO AND OLD MEXICO WHITE-TAIL COUES DEER

The White-tailed Coues Deer is a sub species of White-tailed Deer. The majesty of the Sierra Madre mountains in the east part of Sonora and the Bootheel Mountains of New Mexico makes the perfect range for this exclusive White-tailed Coues Deer. For the past three years in Mexico we have consistently killed deer that are 100" B&C and up with a combined average of 115" B&C.

**Five full day hunt package includes:**  
1x1 guide, accommodations, all meals,

ground transportation during the hunt. In Mexico the cost of the hunt also includes airport pickup at Guaymas or Hermosillo Airport, transportation to all hunting areas, hunting license/tag, gun permits, and field care of trophy.

**Price does not include:** Air transportation, imported liquor (however you can bring your own) and gratuities to guide and cook.

# ORYX/GEMSBOK

## PUBLIC LAND HUNTS

Kiowa Hunting Service offers hunts for free ranging Oryx (Gemsbok) on White Sands Missile Range (WSMR) and also on McGregor Range. We are one of the few licensed outfitters operating on both of the ranges and have been there since outfitters were legally allowed on WSMR. The WSMR and the McGregor Range hunts are public land hunts and the licenses are allocated by drawing. There are numerous hunts to apply for on the WSMR hunts beginning in September of 2018 and run through February of 2019. McGregor Range

hunts are normally in December or January. WSMR hunts are three days hunts and McGregor Range hunts are two day hunts.

WSMR hunts are once in a lifetime while McGregor Range hunts are not. If you have already hunted on WSMR then you can trophy hunt again on McGregor Range. The other option for someone that has held a WSMR permit is to apply for the broken horn hunt on WSMR.

We offer two hunt packages for the Public hunts:

### All Inclusive Package:

- ⊕ Transportation to the hunt area from motel and transportation during the hunt utilizing our vehicles.
- ⊕ Motel accommodations, 1x1 hunt single occupancy, 2x1 hunt double occupancy.
- ⊕ All meals and snacks from the night before the hunt to the end of the hunt.
- ⊕ Guide for either a 1x1 or 2x1 hunt
- ⊕ Trophy preparation (capping) by a taxidermist at the gate (\$120.<sup>00</sup> value)

### No-Frills Package:

- ⊕ Transportation to the hunt area from motel and transportation during the hunt utilizing our vehicles. Lunch day meal and all snacks and drinks during the hunt
- ⊕ Hunter is responsible for own accommodations, meals, and cost of trophy preparation if desired.
- ⊕ Guide for either a 1x1 or 2x1 hunt

### Public Land Oryx (Gemsbok)

**White Sands Hunt Dates**

**No Frills Package:**  
2x1: \$1,250 + 8% tax  
1x1: \$1,800 + 8% tax

**Application Deadline:**  
**March 21, 2018**

# BIGHORN SHEEP

New Mexico's desert bighorn sheep are doing well. We can conduct hunts on any Bighorn Sheep area that you would like to apply for. We have the staff that is familiar with the hunt areas and can provide you with an excellent hunt and successful hunt.

**Cost of the hunt will include:** Outfitter number and assistance in applying for the license in the draw, daytime meals and snacks, courtesy transportation during the hunt, guide and spotter service, trophy preparation of your animal and retrieval of the animal.

### Bighorn Sheep

#### Hunt Prices

7-Day Hunt: \$6,500 + tax  
Season dates depend on Unit and range from August through March.

**The hunter is responsible for:** Transportation to the nearest agreed upon town, motel, morning and evening meals, personal gear, weapon, etc. and the cost of the license.

## IBEX

### PUBLIC LAND BEZOAR (PERSIAN) IBEX HUNTS

New Mexico is the only place in the Western Hemisphere where you can hunt free ranging pure blood Persian ibex. They are not domestic goat cross-breeds and they are not inside high fences.

The staff of Kiowa Hunting Service has 34 years and over 2,000 man-days of experience hunting the ibex. The Kiowa team has four times as many ibex entries in the SCI record book as all the other currently active outfitters combined. The book shows we consistently take larger billies than our competition during the bow hunts.

If you are a non-resident adult and are a competent bow hunter, please consider this:

Based on the very low 2017 draw odds for either the modern rifle or muzzleloader trophy ibex hunts, you are at least 35 times as likely to draw the October bow tag or 14 times as likely to

draw the January bow tag if you include one or both of the archery hunts as a second and/or third choice when you apply with the Kiowa Outfitter Number. Then using Kiowa's high archery success rates during the two most recently completed license years, you could kill at least 5 billies with your bow before you even get drawn for a firearms license. (only the rifle ibex hunt is a once in a lifetime draw)

Our high success on the hunts is due to strategies we have developed from decades of analysis of ibex behavior and specifically their different behaviors during each type of hunt along with differences due to weather changes. As of December 2017 the SCI record book credits our management and guide staff with bow kills numbered 1, 3, 4, 5, 7, 14, 15 and 16. We took number 14 in 2014, number 5 in 2015 and number 3 in 2017. Only numbers 12 and 19 are credited to other outfitters. Across all record book weapon categories we have exactly 80% of the New Mexico ibex entries that are credited to currently operating outfitting companies. That is why people choose to hunt with Kiowa.

The ibex inhabit public land on the scenic Florida Mountains from just above 7000 feet down to the desert shrub at the base. The herd is currently slightly over populated at about 800 animals, with a sustainable portion of mature billies. In fact, the SCI records show that the highest scoring rifle killed and bow killed billies worldwide came from New Mexico. A mounted billy is a stand out in anyone's trophy room. Our success is well above 90% with rifle and muzzle loader. Since our first bow ibex kill in 1988

The New #3 Archery SCI

our archery success is right at 22% which is more than four times as high as the average success for bow ibex hunters.

Hunts occur from October through January with a youth hunt during the school Christmas break. Licenses are issued by drawing. On average a non-resident is about 2 1/2 times more likely to draw if he uses our outfitter number on his application. Not surprisingly, the bow tags are the easiest to draw. Most of our bow kills are at ranges under 70 yards and usually in the 35 to 40 yard range. You must come prepared to shoot out to 60 and 70 yards for your best chance for a successful hunt. The two billies pictured on this page are from our recent hunts.

**Cost of hunt includes:** Use of our outfitter number on your application, hot breakfasts and evening meals in comfortable surroundings plus snacks & drinks to carry, courtesy transportation during the hunt, the most experienced ibex guides & spotters in New Mexico, assistance with retrieval of your animal, and capping for trophy preparation.

**The hunter is responsible for:** Applying for the license with our help, lodging, a daypack, hunting gear and transportation to and from the hunt near Deming, NM.

### Ibex

#### Hunt Dates

Choose any 5 days

**Rifle:** November 15-29, 2018

**Youth Hunt:** Dec. 27, 2018 to Jan. 10, 2019
